

Blanke•HD Anti-Skid Step Strip

(Aluminum)

The Blanke•HD Anti-Skid Step Strip is specifically engineered to provide protection and skid resistance for tiled steps in commercial applications exposed to heavy foot traffic. The unique construction of the Blanke•HD Anti-Skid Step Strip combines the strength and durability of extruded aluminum at the edge of the step where impact and wear is the severest with the skid-resistance of grooved plastic inserts on the step surface. The inserts are available in 4 colors and can provide the safety color contrast at the step edge required to alert sight-impaired pedestrians.

Aluminum; satin silver; extruded; with grey PVC insert

Length 8.0 feet

Pack: 1 piece

h/in.	h/mm	Part No.
