BLANKE AQUA-KEIL

BLANKE AQUA-KEIL is the perfect solution for transition from a sloped tiled shower floor to a level adjacent floor where a glass partition or wall is needed. It is particularly useful for showers with a constant pitch down to a linear drain. Left and right versions are available.

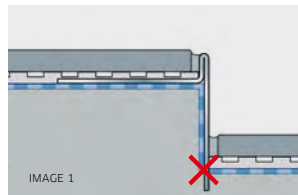

Advantages:

- > Easy to install; profile is pre-sloped (2%)
- > Eliminates odd angled cuts of wall tile at base of shower wall
- > Facilitates cleaning and shower maintenance
- > Provides a sleek seamless contemporary finish to wall/floor connections

Attention:

It is very important that the BLANKE AQUA-KEIL does not damage the waterproofing material (such as BLANKE AQUA-SHIELD). Different slopes can be created by using different heights of tiles. (Image 1)
